

## Resource Materials Available for Check-Out from Utah Division of Wildlife Resources

### Activity Trunks and Boxes:

**Replitracks** - Set of rubber track replicas; can be used in identifying animal tracks or for ink printing. Includes many other resource materials for additional animal track activities. "**SandTable Tracks**" kit also available for use with sand tables. And "**Tracks Stories Kit**" for older students.

**Bird Adaptations Kit** - Kit contains the "Competitive Interaction" activity materials - a complete set of materials for 30 students to carry out the activity which focuses on bird bill adaptations and feeding strategies - and "Head/Bill and Feet Replicas"- a set of 10 true-to-life colored bird head/bill and feet replicas. An excellent kit to supplement the Project WILD activity, "Adaptation Artistry."

**Bat Box** - Box with a wealth of educational resources on bats including, books, videos, bat skeleton, posters, puppets, activity guides and more.

**Endangered Species Trunk** - Confiscated items from the illegal wildlife trade.

**Ungulate Trunk** - Activities, a wealth of supplemental resources and information and parts of ungulates, animals with hooves. Cannot be shipped due to large size.

**Songbird Blues Box** - Excellent kit containing a wealth of general songbird education materials, songbird specimens, puppets, posters and a comprehensive curriculum to teach about migratory songbirds. Too large to be shipped.

**Owl Box** - A kit containing an owl wing and raptor feather to demonstrate the silent flight of owls, an owl skull, pellet samples, puppets, childrens' books, posters, videos, an array of articles and information, plus more.

**Cat Crate** - Kit containing hides, skull, track replicas, books and more to discover more about Utah's largest cat, the mountain lion, and its smaller relatives, the bobcat and lynx.

**Seeing Is Believing, Or the Eyes Have It** - Materials and resource kit to supplement and enhance the Project WILD activity with the same title which explores the world of animal vision.

**Bear Box** - Incredible trunk which includes a polar bear hide, black bear hide and skull, grizzly bear hide and skull, track replicas and much more to explore North America's three bear species. Cannot be shipped due to large size.

**Endangered Species Puppet Potpourri** - A wonderfully fun and educational set of puppets and stuffed animals from around the world with story books, background information, activity guides and posters.

**Black-footed Ferret Activity Box** - A kit full of activities, background information, videos, posters, puppets and more to help students learn about the endangered black-footed ferret and its reintroduction into Utah.

**Wild Turkey Trunk** - Contains wild turkey activities, turkey call devices, feather samples, rubber track and scat replicas, a set of full-color background information bulletins, a wild turkey calls CD-ROM, wild turkey video, posters and more.

**Shorebird Educational Activity and Materials Trunk** - Great trunk featuring amazing shorebirds, containing activity guides, excellent resource books, posters, videos, puppets, a flock size estimation computer game and more.

**Wild Canids: Coyotes, Foxes and Wolves** - Kit containing hides, skulls, track replicas, books, posters, videos and more to discover more about these fascinating mammals.

**Beavers** - Kit contains beaver hide, skull, videos, rubber replicas of feet and tail, puppet, books, activities and more.

**The Common Loon** - Box with excellent activity guide, loon video, vocalization audio tape, posters, articles and more.

**Pacific Salmon** - Contains information, activities, poster, videos and more. Great to accompany activities "Hooks & Ladders" and "Sockeye Scents" in the Project WILD Aquatic guide.

**Deserts, Wetlands, Forests/Mountains** - Three separate trunks featuring environments of Utah. Each contains background information articles, comprehensive activity guides, posters, puppets, children's books, videos and more. We also have a separate **Wetlands Field Study Trunk**.

**Reptiles and Amphibians** - Trunk with activity guides, extensive background information materials, videos, puppets, posters, and myriad books for children featuring these intriguing animals.

**Utah Fish** - Trunk with activity guides, extensive background information materials, videos, puppets, posters, fish models and for students to learn about Utah fish species.

**Understanding the Work of Nature; Appreciating Nature's Services; Conserving the Diversity of Life** - Three excellent trunks each containing an easy-to-follow activity guide with instructions and background information plus maps, posters, videos, and CD-ROMs and other supplemental materials. Large size limits ability to ship these trunks.

**Biodiversity Box:** A diverse collection of activity guides, videos, books and more focusing on biodiversity and its importance. Includes materials on endangered species and exotic species issues.

**Raptors Trunk:** Collection of activity guides, background information, videos, posters, etc. featuring hawks, falcons and eagles. Also includes feather samples, raptor skulls and talons too!

**Watersheds:** A collection of excellent activity guides, background information, children's books, etc. featuring rivers and streams. Includes the complete River Otter box.

**Utah Mammal Skull Identification Trunk - Elementary or Secondary Level:** Includes activity with comprehensive background information, skulls, dichotomous key, featured mammals pictures and information.

**Bald Eagle and Golden Eagle:** Borrow either of these eagles for display at your school. Mounted on a wood base and covered with a plexiglass cover, these specimens must be transported by truck. We also have a mounted **Great Horned Owl** to loan out.
